Timber Joinery Doors

A bright, modern kitchen with a large island. The island has a light-colored marble countertop and is surrounded by five wooden stools. The kitchen features light wood cabinets, a white subway tile backsplash, and a stone wall on the right. The ceiling has white beams and recessed lighting. The floor is made of light wood. The text "Crafted for life" is overlaid in the center of the image.

Crafted for life

“We have been curating our timber door profiles over the past 2 years to make sure we got it right. We wanted to give our clients the flexibility to choose a door profile that suits their style and design aesthetic” says Rob Loughlin.

Loughlin Furniture

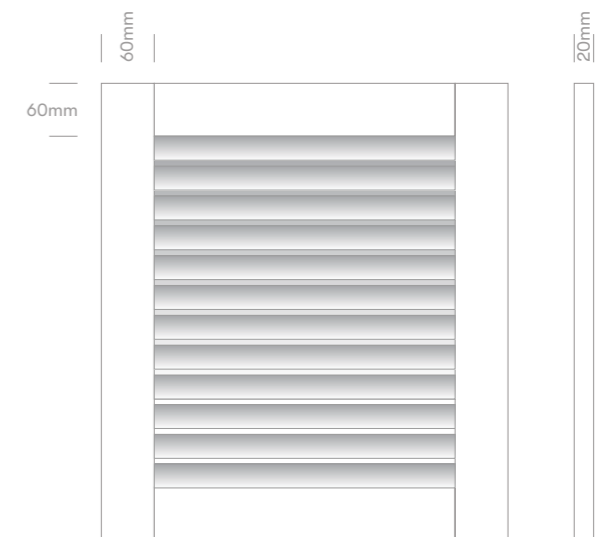

The Keys door profile is meticulously crafted with a solid timber frame and custom louvre, using a traditional mortise and tenon construction to ensure your doors will last a lifetime.
